MEDICINAL

"Don't Speak"

To the motorman, "is a sign to be seen on the front platform of many cars. It requires all his thought, all his energy and all his strength to pilot his car through crowded streets. The strain tells on him, and some when he gets "rattled" and has an accident. The surest way to sustain the physical strength and nervous force required by the motorman or railroad man is to keep the stomach in a condition of sound health. When the stomach becomes "weak," food is imperfectly digested and the body is deprived of its necessary nourishment. The nerves are "unstrung" and the body is weakened. The timely use of Dr. Pierce's Golden Medical Discovery when the stomach is "weak" will re-establish the body in vigorous health. It cures diseases of the stomach and other organs of digestion and nutrition, nourishes the nerves and purifies the blood.

"I suffered for four years with pain in my stomach so that at times I couldn't work nor eat," writes Mr. Frank Smith, of Granite, Chicago, Ill. "I wrote to you about my sickness and was told to use your medicine, which I did with good results. I only used four bottles of your 'Golden Medical Discovery,' and must say that I am entirely cured, and feel like a new man, and I can highly recommend your medicine to any sufferer."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE INFIRMARY.

The annual report of the treasurer, managers, matron and auxiliary societies of the Alexandria Infirmary for the year 1900, has been published. The treasurer reports receipts from all societies, including boarding department \$5,550.16 and expenses including repairs and improvements \$4,091.13, leaving a balance on hand of \$1,459.03. The matron reports that at the beginning of the year there were 19 patients in the Infirmary. Since then there have been 27 admissions, making a total of 296. At present there are 18 patients in the institution. The managers gave a resume of the work of the Infirmary since its establishment, January 1, 1873, and add: During the past year the work has gone on, quietly, as usual, but with unfaltering energy and zeal. But few changes have occurred. In March last a resolution was passed by the board empowering the matron to add one or two pupil nurses to the regular number in training, that should the need arise for trained nurses for outside patients, they might be one or more who could be spared. This plan has been carried out with good results, and high commendation has been bestowed on the nurses, by those in whose homes they have been in attendance. The matron has also cared for a number of outdoor patients, sometimes going herself to their homes to visit and minister to them, as they had need.

During the summer, Dr. Howard, who had rendered good service to the institution while on the staff, received an appointment as surgeon to the Virginia Military Institute, which he accepted, and sent in his resignation to the trustees. This left a vacancy in the staff and necessitated a change, which was made by the board of managers, after due consultation with the trustees and staff. They passed a resolution that the staff should be reduced to four members as formerly, each to serve three months. They are, Dr. Klipstein, Dr. Purvis, Dr. Thomas Gibson and Dr. Arthur Snowden. Dr. William M. Smith and Dr. Slaughter are retained as consultants.

No changes or additions have been made in the building, except the of a bath room on the third floor, which had long been needed. During another year we trust that some means may be forthcoming for the construction of an elevator, so essential to the comfort and convenience of all. And, at some future day, we desire to have a ward for consumptives; but for that we must wait quietly. The acknowledgments include: St. Paul's Church, \$236.10; Christ Church, \$123; Presbyterian Church, \$18.50; M. E. Church South, \$21; Trinity Church, \$5; M. P. Church, \$5.51; Baptist Church, \$5.40; and miscellaneous, \$163. The annual report of the work done by the Circle of King's Daughters for the Infirmary has also been submitted and shows the deep interest taken by the ladies of these circles in one of Alexandria's noblest institutions.

THE KING'S CHAMPION.—One of the most interesting features of King Edward's coronation will be the probable appearance of the King's Champion, 40, in the presence of the assemblage, rides forth, throws down his gauntlet, and challenges all to dispute with him by personal conflict the right of King Edward to reign. The present King's Champion is a hard-working young farmer, who glories in the name of Dymoke.

He lives in Lincolnshire, is of a modest retiring nature, and is much exercised at the prospect of the greatness which is likely to be thrust upon him. Neither in his figure, which is small, nor in his appearance, which is that of the typical Lincolnshire farmer, is he cut out for such martial duty. Since the time of the Norman Kings, the Dymokes have been champions.

Several rulers, notably Queen Victoria, held their coronation without the appearance of the inevitable Dymoke, but it is thought King Edward is likely to revive the duty so long devolved on the ancient family. An item in the civil list, £15,000, for the King's buckhounds, arouses the most intense opposition in many quarters. The Humane League has memorialized the King in opposition, declaring that the growth of humane sentiment has rendered the sport as odious to the more refined spirit of the present age as bull and bear baiting were in the past century. They suggest that instead of hunting animals which are liberated in a mutilated state to facilitate their capture, drag hunting be substituted.

SAYS CONSUMPTION CAN BE CURED.
Professor Weizsaecker, of the University of New Mexico, conducting experiments under the authority of the University biological department, has evolved what he pronounces a complete cure for consumption. After long experiments, he has determined that the transitory effects upon the blood corpuscles of a person passing from a lower to a higher altitude are renewed by frequent changes of altitude. By occasional visits to the sea level, he says, the system can be reinvigorated, even when the effects of the higher altitude have been worn off.

The Mother's Favorite

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Richard Gibson, druggist.

IT WILL SURPRISE YOU—TRY IT.
It is the medicine above all others for catarrh and is worth its weight in gold. My son was afflicted with catarrh. He used Ely's Cream Balm and the disagreeable catarrh all left him.—J. C. Olanston, Arcata, Illinois.
The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts. or mailed by Ely Brothers, 50 Warren street, New York.

Recent experiments show that all classes of foods may be completely digested by a preparation called Kodol Dyspepsia Cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion and it always gives instant relief.
